great design reflects your personality and taste. But sometimes you want a sense of tranquility and other times, more drama. Using the tips listed below, the coordinating colors in this palette allow you to change the mood and feel but still achieve a unified look. Go bold, strike a balance or be subtle. That’s the beauty of using a perfectly chosen palette throughout your home.

COORDINATE YOUR COLOR TRANSITIONS

It’s all in the details. Once you’ve selected your focal color, use other shades to fill in the gaps and create a color palette that works for you. Whether you’re going for a bold, dramatic look or a softer, more subtle one, using a color palette that combines shades from different families can create a cohesive look throughout your home.

SOFTER SIDE

We’re bringing romance back with a bouquet of colors that could have been selected by Mother Nature herself. Brighter, floral-inspired accents burst forth when contrasted with neutral tones, while gray and charcoal provide a perfect backdrop for soft violets, greens and corals. It’s a look rooted in vintage elegance, but updated with a stylish twist.

REFRESHING

“Perfumes, colors and sounds echo one another.”
Charles Baudelaire
(poet and art critic, born 1821)

LUMINOUS

If a life without drama leaves you wanting, seek no further. This look makes a striking statement instantly. By combining bolder shades with their more neutral counterparts, you can effortlessly create a space high on impact.

SPIRITED

A balanced look is inviting. It accommodates different moods and tastes. Start with a couple of neutral shades that will serve as your base. Pepper with bolder accent colors for a lively surge of intensity. Once you’ve nailed down what works in one room, maintain the balance throughout.

If you view your home—or certain rooms within it—as your sanctuary, tranquility is right at hand when you stick to shades that are similar in tone and saturation. Apply to walls, trim and ceilings for a soothing yet sophisticated look, inviting a sense of relaxation.

**Reinvent Your Furniture**

**Reconsider White Ceilings**
