## Pool Deck

### ConFlex™ Flexible Concrete Waterproofer

A slip-resistant, breathable finish designed to protect from water intrusion. This single component waterbased formula has fast dry times and outstanding durability, and can be tinted to hundreds of colors. Use as a stand-alone product or topcoat with a clear sealer to provide maximum performance.

SHERWIN-WILLIAMS.

## ***Porch & Floor***

### **Porch & Floor Enamel**

Our enhanced formula delivers excellent block resistance and resistance to dirt, plus a wide selection of colors for wood and concrete floors. A popular choice for residential projects, Porch & Floor Enamel provides great washability and offers low slip resistance: passes wet and dry with and without slip resistant additive.

SHERWIN-WILLIAMS.

## Concrete/Driveway

### Loxon® Clear 40% Silane Water Repellant

Defends masonry and concrete against chloride attack and wind-driven rain. It penetrates the surface for maximum protection. With minimal prep and cleanup, Loxon® delivers a transparent, no-sheen finish for a natural, uncoated look.

### **Emerald® Designer Edition™ Interior Latex Paint**

Emerald® Designer Edition™ Interior Latex Paint combines the luxury of a smooth, uniform finish with our best hide yet. Choose from an expansive selection of 200 brand-new hues — including brighter whites — curated into five exclusive designer color collections. Available in flat, satin and gloss sheens, Emerald® Designer Edition™ is a great, high-performing choice for homeowners looking for an exceptional finish.

### **Emerald® Interior Acrylic Latex**

Delivers truly remarkable hide, washability and application. Emerald® also features excellent stain, block, water spotting and burnish resistance for premium performance and luxurious, long-lasting beauty.

### **Duration Home® Interior Acrylic Latex**

Features exclusive cross-linking technology for true washability and allows most stains to wipe away easily with water. Offers excellent hide and touch-up and contains anti-microbial agents which inhibit the growth of mold and mildew on the surface of this coating film. Available in all colors including bold, vivid accents. Also features Moisture Resistant Technology, offering quick return to service and durability in moist environments like bathrooms.

### **Cashmere® Interior Acrylic Latex**

Many paints typically leave brush or roller marks, creating an uneven, stippled appearance. But Cashmere® Interior Latex glides on buttery smooth and levels out, giving walls an elegant, silky rich look. The result is a difference you can definitely see and feel.

### **SuperPaint® Interior Acrylic with Air Purifying Technology**

Help improve indoor air quality for your customers with the trusted performance of SuperPaint® with Air Purifying Technology\*. It contributes to better indoor air quality by reducing VOC levels from potential sources like carpet, cabinets and fabrics.

### **SuperPaint® Interior Acrylic Latex**

When a job calls for quality performance, as well as time and material savings, SuperPaint® Interior is the choice of professionals. It goes on fast, and provides excellent hide, quick cleanup and easy touch-up.

## Ceiling

### **Eminence® High Performance Ceiling Paint**

Masks minor surface imperfections quickly and achieves outstanding uniformity immediately. It resists spattering and dries quickly to a bright white finish. Contains anti-microbial agents which inhibit the growth of mold and mildew on the surface of this coating's film.

### **SuperPaint® Interior Acrylic Latex Flat**

When a job calls for quality performance, as well as time and material savings, SuperPaint® Interior is the choice of professionals. It goes on fast, and provides excellent hide, quick cleanup and easy touch-up.

## Doors & Trim

### **Emerald® Urethane Trim Enamel**

Delivers the smooth, uniform finish of an oil-based enamel with the convenience of a waterbased formula. Versatile to interior or exterior applications, it resists yellowing, maintaining its brilliant color and sheen.

### **ProClassic® Enamel**

Exceptional adhesion, excellent flow and leveling, non-yellowing and a unique wet and dry hide make ProClassic® an excellent choice for doors and trim, cabinets and furniture. Features all the benefits of waterbased enamels without sacrificing adhesion, durability and block resistance.

### **SnapDry™ Door & Trim Paint**

SnapDry™ dries in as little as one hour of application and a door can be closed without sticking. SnapDry™ is resistant to dirt and fingerprints, UV and weathering, and can be used in both interior and exterior applications.

## Wood Handrails

### **Minwax® Stains and Sealers**

From warm, rich wood stains to protective, clear finishes, Minwax offers a complete line of quality, easy-to-use wood finishing products.

\*Reduces VOC levels from potential sources like carpet, cabinets and fabrics and works to reduce unwanted household odors. The length of time SuperPaint® with Air Purifying Technology Interior Acrylic Latex actively reduces odors and formaldehyde depends on the concentration, the frequency of exposure and the amount of painted surface area.

# Exterior Substrates/Surfaces

## Exterior Wall

### **Emerald® Rain Refresh™ Exterior Acrylic Latex Paint**

For a durable, just-painted look that lasts, choose Emerald® Rain Refresh™ Exterior Acrylic Latex with Self-Cleaning Technology. An ultra-durable coating that not only looks great, it stays looking great, minimizing maintenance for homeowners.

### **Emerald® Exterior Acrylic Latex**

Featuring rugged resistance to blistering, peeling, chalking, fading and dirt pickup, Emerald® is self-priming and can be applied in temperatures down to 35°F (2°C). Emerald delivers innovative durability, hide and beauty for a truly outstanding finish.

### **Duration® Exterior Acrylic Coating**

Formulated with PermaLast™ technology and infused with advanced acrylic co-polymers for long-lasting performance. It is both self-priming and provides a mildew-resistant coating.

### **Latitude™ with ClimateFlex Technology™ Exterior Acrylic Latex**

Combines premium performance features with weather-adaptive technology for results that are ideal, even when the weather isn't. It develops early moisture resistance in as little as 30 minutes and applies smoothly when air, surface and material temperatures are as low as 35°F or as high as 120°F.

### **Rejuvenate™ Siding Restoration Coating**

An exterior paint and primer in one designed to maximize adhesion. This high-build coating with SmoothFill Technology gives aged and weathered siding a smooth, uniform appearance. Tintable to pastel and mid-tone shades, the beautiful low sheen provides a sleek, attractive finish.

### **Loxon® Concrete and Masonry Solutions**

From conditioner to surfacer to primer and topcoats, Loxon® coatings are formulated to withstand extreme sun, rain, heat, humidity and alkali surfaces. Loxon® coatings resist high pH, alkalinity, efflorescence, chalking and mildew for beautiful color and sheen that lasts. In addition, Loxon® clear water repellents and sealers protect concrete and masonry from water penetration.

## Metal Fencing & Doors

### **Pro Industrial™ Acrylic Coating**

An easy-to-apply, fast-drying, high-performance acrylic with exceptional stain and flash rust/early rust resistance.

### **Pro Industrial™ Urethane Alkyd Enamel**

A general-purpose enamel fortified with urethane resin for durability and flexibility. It provides good exterior color and gloss retention and flows and levels to a smooth finish. It has excellent stain resistance and stain blocking properties.

## Brick Wall

### **Loxon® Concrete and Masonry Solutions**

From conditioner to surfacer to primer and topcoats, Loxon® coatings are formulated to withstand extreme sun, rain, heat, humidity and alkali surfaces.
