## Surface Preparation:
- Remove loose rust and paint
- Remove grease, dirt and oils
- Sand glossy or rough surfaces with 220-grit sandpaper
- Wipe down with tack cloth to remove all dust
- Apply to dry surface
- When painting over a previously painted item, test paint for compatibility in an inconspicuous area

## Application:
**Indoor/Outdoor, Indoor/Outdoor Metallics, Acrylic Crystal Color, Acrylic Crystal Clear, Brushed Metallic and Primer**
- Shake can vigorously for 2 minutes after enclosed ball begins to rattle
- Repeat shaking can for 10 seconds after each minute of use
- Test spray in an inconspicuous area for compatibility
- Hold can 6–8 inches from surface
- Spray in a sweeping motion, beginning off the surface and continuing each pass off the other side
- Apply multiple thin coats to avoid runs and drips

**Acrylic Crystal Color**
- Additional coats will darken color but will remain transparent
- Apply 1 coat of Acrylic Crystal Clear if a higher gloss is desired

**Note:** Follow label directions

### Innovation Never Looked Better.

Krylon® has it. A great reputation. Outstanding brand awareness. A history of cutting-edge product innovation. And, most importantly, unlimited potential.

Painting is now easier, faster and simpler. Krylon is once again changing the way people paint. Now consumers can experience the ultimate in spray painting control with the EZ Touch 360™ Dial, a new and improved cap and label, and an enhanced formulation that will increase your turns and have Krylon spray paint moving off your shelves.

The products that customers want ... the traffic, sales and customer satisfaction that retailers want. Krylon has it. So make sure you have Krylon.
