INTERIOR PAINTS

AESTHETICS AND DURABILITY ARE IMPORTANT.

The key properties for evaluating interior paints include hiding, touchup, washability, scrubs, stain resistance, burnish resistance and smooth application.

EMERALD®
- Our finest paint with unsurpassed overall performance
- Exceptional hide, coverage, durability and washability
- Paint and primer in one with advanced stain-blocking technology.
- Antimicrobial agents inhibit the growth of mold and mildew on the paint surface
- Available in Flat, Matte, Satin and Semi-Gloss

DURATION®
- Most stains wipe clean with soap and water
- Minimal colour rub-off and less visible shine after washing
- Antimicrobial agents inhibit the growth of mold and mildew on the paint surface
- Available in Flat, Matte and Satin

HARMONY®
- Zero VOC formula
- Odour Eliminating Technology helps reduce common indoor odours
- Formaldehyde Reducing Technology helps improve indoor air quality by reducing VOC’s from possible sources like insulation, cabinets, carpet and fabrics
- Antimicrobial agents inhibit the growth of mold and mildew on the paint surface
- Available in Flat, Eg-Shel and Semi-Gloss
*The length of time Harmony actively reduces odours and formaldehyde depends on the concentration, the frequency of exposure and the amount of painted surface area.

QUALI-KOTE®
- High quality latex interior paint with great touch-up capabilities
- Great coverage
- Available in a matte, satin, low gloss, eg-shell, semi-gloss and pearlescent finish**

OPULENCE®
- Smooth, easy application
- Self-levelling formula reduces brush and roller marks
- Scrubbable for easy cleaning
- Available in Flat, Velvet, Satin and Semi-Gloss

PROCLASSIC®
- Durable with great adhesion
- Excellent flow and levelling for a smooth finish
- Available in Satin, Semi-Gloss and Gloss
- Available in WaterBased Aly kd formula

SNAPDRY®
- Dries in as little as one hour
- Interior/exterior application
- Resistant to dirt, fingerprints, UV and weathering
- Doors can be closed in one hour without sticking

PORCH & FLOOR ENAMEL
- Ideal for both interior and exterior high-traffic surfaces
- Porches, patios, basement stairs and floors, workshops, laundry areas, storage rooms and more.
- Excellent washability maximizes the life cycle of the substrate
- Available in satin and completely tintable in many colours, including today's popular bold accents.
- Stands up to even the toughest household chemicals.
- Meets the most stringent VOC regulations.
- Lifetime warranty

EMINENCE®
- Delivers a bright white finish.
- A flat finish specifically formulated to help hide surface imperfections and block new stains from forming.
- Applies easily with a smooth consistency.
- Excellent flow and leveling and an exceptionally uniform appearance.
- No primer needed — covers in just one coat.
- Dries quickly, resists spattering and offers long-lasting beauty.
- Tintable up to 2 oz/gal for light pastel shades
**EMERALD®**
- Best-in-class, overall performance
- Exceptional durability and hide
- Self-priming with smooth, uniform appearance
- Can be applied at temperatures as low as 2°C (35°F)
- Available in Flat, Satin and Gloss

**DURATION®**
- Provides a thicker more flexible layer compared to ordinary latex paint
- Excellent resistance to cracking, peeling and blistering
- Self-priming for one-coat performance on repaints
- Can be applied at temperatures as low as 2°C (35°F)
- Available in Flat, Satin and Gloss

**SUPERPAINT®**
- Formulated with Advanced Resin Technology for excellent adhesion, hide and colour retention.
- Excellent coverage and durability. Provides a dirt-resistant and mildew-resistant coating.
- Withstands the elements and resists frost, peeling, blistering, and cracking.
- Low temperature application down to 2°C (35°F)
- Sherwin-Williams VinylSafe® Colours provide a wide colour selection and excellent performance on vinyl without buckling when using darker colors from the VinylSafe® palette.
- Available in Flat, Low lustre, Semi-Gloss
- Backed by a Lifetime Limited Warranty

**REJUVENATE®**
- Dependable bonding
- Ideal application for peeling siding and trim
- Smother finish compared to applying a traditional paint and primer over less-than-perfect surfaces
- Use on smooth or textured surfaces including wood, plywood, composition board, masonry, concrete, cement, block, stucco, vinyl, aluminum, galvanized steel or steel
- Fast dry

**RESILIENCE®**
- MoistureGuard® Technology lets you paint with less concern about dew or impending rain
- Outstanding hide, coverage and durability
- Can be applied at temperatures as low 2°C (35°F)
- Available in Flat, Satin and Semi-Gloss

**A-100®**
- Good hide, adhesion and colour retention
- Efficient coverage
- Can be applied at temperatures as low as 2°C (35°F)
- 100% Acrylic Formula
- Available in Flat, Satin and Gloss
EXTERIOR WATERBORNE SEMI-TRANSPARENT STAIN
- Provides rich pigmented appearance, allows wood grain texture to show through
- Repels water on new or weathered wood
- Can be applied to damp or dry wood
- Soap and water cleanup
- Semi transparent

EXTERIOR WATERBORNE TRANSPARENT
- Provides durable, transparent protection
- Protects new, weathered or previously stained
- Can be applied to damp or dry wood - Soap and water cleanup

EXTERIOR WATERBORNE LOG HOME & DECK STAIN
- Designed specifically for exterior log homes, wood decks, benches, even outdoor wood furniture.
- Innovative water-based formula delivers a high-quality satin sheen and varnish-like finish for beauty and enhanced weathering characteristics. May be used on interior vertical logs
- Provides the easy application and cleanup qualities of a traditional water-based stain, with far less labour than a traditional varnish
- UV inhibitors and exceptional water-beading properties help extend the life of the finish, so the sleek, satin sheen lasts for years

EXTERIOR WATERBORNE CLEAR SEALER
- Allows wood to gray naturally
- Repels water on new or weathered wood
- Soap and water cleanup

EXTERIOR WATERBORNE DECK & DOCK COATING
- Helps to smooth and fill rough, damaged surfaces
- Delivers maximum hide
- Resistance to algae and mildew
- UV protection and long lasting colour

EXTERIOR WATERBORNE SEMI-SOLID & SOLID STAIN HIGH-REFLECTIVE
- Contains pigments that actually reflect solar rays back into the atmosphere, thereby helping reduce the exterior surface temperatures of decks exposed to the constant assault of direct sunlight
- Protects against weathering, chipping, or cracking
- Contains agents which inhibit the growth of mildew on the surface of this paint film, so decks stay cleaner and fresher looking in any climate
- Easy application, quick drying time, and easy cleanup
- Tolerant of damp surfaces

EXTERIOR WATERBORNE SEMI-SOLID STAIN
- Provides rich pigmented appearance, allows some natural wood grain to show through
- Repels water on new or weathered wood
- Can be applied to damp or dry wood
- Soap and water cleanup

EXTERIOR WATERBORNE SOLID STAIN
- Provides durable, opaque protection
- Protects new, weathered or previously stained wood or composite
- Can be applied to dry or damp wood
- Water clean up

EXTERIOR WATERBORNE SEMI-SOLID STAIN
- Provides rich pigmented appearance, allows some natural wood grain to show through
- Repels water on new or weathered wood
- Can be applied to damp or dry wood
- Soap and water cleanup

EXTERIOR WATERBORNE SEMI-TRANSPARENT STAIN
- Provides rich pigmented appearance, allows wood grain texture to show through
- Repels water on new or weathered wood
- Can be applied to damp or dry wood
- Soap and water cleanup

Professional Painters should contact their local store or rep for volume pricing.
©2016 The Sherwin-Williams Company
**PREMIUM WALL & WOOD PRIMER**
- Assures professional looking results on wood trim, doors and walls – and provides the smoothest finish on decorative surfaces like crown molding and window and door casings
- Allows the finish coat to develop a full and consistent sheen and offers exceptional ability to maintain topcoat gloss
- Ideal for use under ProClassic® and Opulence® topcoats
- Quick drying
- Interior Only

**MULTI-PURPOSE LATEX PRIMER**
- Interior and exterior primer.
- Excellent stain-blocking and hiding.
- Good adhesion and bonding
- Can be used as a pre-wallcovering primer to promote easy removal.
- Meets the most stringent VOC regulations.
- Can be applied in temperatures as low as 2°C (35°F)
- Interior & Exterior use

**MULTI-PURPOSE OIL BASED PRIMER**
- Can be used on many interior surfaces including wood, hardboard, cured plaster, paneling and ceiling tiles.
- Dries quickly and assures a uniform finish.
- Seals out water sensitive stains, dried water stains, smoke stains and related odors, grease, ink, and pencil stains.
- Interior only

**DRYWALL PRIMER**
- A great choice for basic priming at an affordable price
- Well-suited for priming under flat topcoats
- Performs on drywall, wood and plywood
- Interior Only

**EXTERIOR OIL BASED WOOD PRIMER**
- Penetrates and seals bare wood for strong adhesion and a long lasting finish.
- Resists mildew
- Exterior only

**EXTERIOR LATEX WOOD PRIMER**
- Adheres tightly to previously painted surfaces, plywood, and bare wood – including fir and other softwoods
- Also adheres well to aluminum, galvanized metal and pre-primed steel
- Resists mildew
- Exterior Only

**A-100 EXTERIOR PRIMER**
- Dries quickly
- Penetrates and seals bare wood for great adhesion
- Blocks stains from water, wood, tannins and knots
- Contains agents which inhibit the growth of Mold and mildew
- Exterior Only

Professional Painters should contact their local store or rep for volume pricing.
©2016 The Sherwin-Williams Company
EXTREME BOND PRIMER
- Tightly bonds to many glossy surfaces
- Assures uniform appearance of topcoats
- One-coat application
- Fast dry
- Assures adhesion of the topcoat to hard-to-stick surfaces
- Sanding may not be necessary for most clean, paintable surfaces

WHITE SYNTHETIC SHELLAC PRIMER
- Extremely effective in blocking the most resistant odours and stains including smoke damage, water stains, tannins and wood knots
- Compatible with a full range of latex topcoats
- Ideal for fire restoration
- Seals in damage caused by water leaks, pet odor and cigar smoke.
- Performs like a shellac- without shellac. Provides an excellent foundation for a flawless finish.

WHITE PIGMENTED SHELLAC PRIMER
- Provides excellent adhesion to virtually any interior surface – from previously painted surfaces, wood and paneling, to cured plaster and ceiling tiles
- Can be used as a spot primer for exterior applications
- Also effective for spot priming knots and severe tannin stains on bare wood.
- Seals in odours from fire, smoke, and pets.
- Seals in stains and graffiti
- Primers and seals in one coat

WATER BLOCKING PRIMER/FINISH
- Saves time and money with a primer and finish coat in a single product.
- Anti-microbial agents inhibit the growth of mold and mildew on the paint surface.
- Can be tinted to a wide range of colours.
- Odour-eliminating technology reduces common household odours and smells associated with damp environments.

LOXON CONCRETE MASONARY PRIMER
- Seals and adheres to concrete, plaster, brick, stucco, fiber cement siding and EIFS exterior insulated siding.
- Masks pinholes and surface imperfections while preventing peeling caused by alkali salt damage.
- Saves the time and money typically lost while waiting for complete curing of concrete surfaces

PRIME RX PEEL BONDING PRIMER
- Seals surfaces and assures a smoother finish.
- Saves time, money and labour with less sanding and scraping.
- Goes on milky-white for ease of application and dries clear.
- Compatible with any of our exterior acrylic topcoats.
- Meets the most stringent VOC regulations.
- Cleans up easily with soap and water.
H&C ACRYLA-DECK SOLID COLOUR
• COOL FEEL™ Technology reduces the temperature of concrete surfaces exposed to UV rays by up to 20 degrees F. * Temperature reduction may differ due to factors such as: ambient temperature, time of day, and the amount of direct sunlight on the surface.
• Highly resistant to pool chemicals and many other household chemicals for long lasting beauty and protection.
• Hi-Build coating limits the surface from becoming slippery compared to conventional pool coatings.
• Water-Based formulation allows for easier application and clean-up
• Extra-White and Deep Bases available for various custom color options
• Provides a durable finish that extends the life of concrete and masonry surfaces.

H&C CLARISHIELD OIL BASED CONCRETE SEALER 250
• Seals and protects cement surfaces.
• Provides a durable, glossy finish.
• Crystal clear, non-yellowing.
• Resists water, pool chemicals and UV rays.
• Suitable for driving surfaces.
• Can be used as a cure and seal.
• Not all products are in stock at all locations but can be special ordered

H&C CLARISHIELD WATER-BASED WET LOOK CONCRETE SEALER
• Interior and exterior use
• Can be used on bare or painted concrete and masonry surfaces
• High solid content
• Suitable for driving surfaces
• Ideal gloss finish over Solid Colour Stain Water-Based
• Rolls on milky white and dries clear

H&C COLORTOP WATERBASED SOLID COLOUR CONCRETE STAIN
• Can be used on new or used concrete
• Can be used on previously painted concrete surfaces with proper preparation as well as asphalt surfaces
• Resistant to acids, UV rays, oil, gas & alkali
• Provides a mildew resistant coating
• Interior & exterior use
• Available in a variety of ready-to-use and tintable colours

H&C SHIELD-CRETE™ EPOXY WATERBASE CLEAR GLAZE
• One component clear water-based acrylic sealer.
• Provides excellent protection for Shield-Crete Deco-Flakes, easier clean-up and glossier finish.
• Required when Deco-Flakes cover more than 50% of surface.

SHIELD-CRETE WATERBASED EPOXY GARAGE FLOOR COATING
• No induction, or sweat-in time is necessary, just mix and apply.
• Pull your car back into the garage in just 3 days.
• It is resistant to chemical agents and damage caused by gasoline, brake fluid, standing water and battery acid.
• Water-based - clean up with just soap and water.
• Not all products are in stock at all locations but can be special ordered.

H&C COLORTOP OIL BASED SOLID COLOUR CONCRETE STAIN
• For use on exterior horizontal or vertical surfaces.
• Suitable for driving surfaces.
• Satin finish preserves delicate architectural details.
• Resists UV rays, oil, gasoline and hot water.
• Available in a variety of ready-to-use and tintable colours.

H&C SHARKGRIP SLIP RESISTANT ADDITIVE
• Creates a slip-resistant surface when added to any H&C topcoat.
• Mixes easily.
• Easier to clean than sand textured surfaces
• Easy on bare feet.

H&C ULTRAPAVER WATERBASED NEUTRAL & GLOSS PAVER SEALER
• Water and weather resistant.
• Nationally VOC Compliant.
• Water-based.
• Applies milky white to ensure coverage, dries clear
• Withstands vehicular traffic.
• Maintains natural look of pavers.
• Paver Sealer Natural locks in joint sand.
**SOLO ®**
- Delivers good hide, block resistance and durability.
- Provides excellent adhesion on both new and previously painted surfaces — including masonry, wood, drywall, plaster, metal and galvanized substrates.
- Most sheens are self-priming for properly prepared interior.
- Meets the most stringent VOC regulations.
- Ideal for new and existing homes and multi-family residences — allowing crews to move seamlessly from one area to another without changing paint or cleaning applicators.
- Available in flat, eggshell, satin, semi-gloss and gloss — in a wide variety of colour options.

**PROMAR 400 0VOC ®**
- Meets the most stringent VOC requirements.
- Delivers good hide and reliable touch-up to minimize call backs.
- Applies quickly and easily so you can turn jobs fast and save time and money.
- Ideal for commercial, specifiers, property managers and new residential builders looking for trusted performance and value.
- Suitable for drywall, masonry, plaster, metal, wood and concrete.
- Available in flat, low sheen, eggshell, semi-gloss and gloss.

**PROMAR CEILING PAINT ®**
- Super-flat finish diminishes small surface flaws, reducing callbacks and improving the final appearance.
- Self-priming properties achieve an attractive finish in one fewer step than many builder-grade ceiling paints.
- Ceiling-white colour offers good light reflectivity and is tintable to hundreds of colours.
- Great adhesion and hide provide reliable results at an affordable price point.
- Labour-saving formula is designed for spray application — no back-rolling needed.
- Ideal for new residential, commercial and multi-family properties.

**PROMAR 200 0VOC ®**
- Exceptional durability, easy application, and excellent hide.
- Anti-microbial agents inhibit the growth of mold and mildew on the paint surface.
- Available in flat, low gloss eggshell, low sheen eggshell, eggshell, semi-gloss and gloss.
- Outstanding touch-up reduces repaint costs.
- Zero VOCs meets the most stringent environments.
- Complies with LEED, MPI, GREENGUARD, Environmental Institute (GEI) and other green guidelines and regulations.
- Available in all colours including deep, vivid accents.

**QUALI-KOTE ®**
- High-hiding, high quality interior latex.
- Excellent Coverage.
- Available in flat, satin, semi-gloss and pearl.

**PAINTERS EDGE ®**
- Provides good hide, excellent touchup and spatter-resistant formula.
- Ultra-Flat finish to minimize minor surface defects.
- Also available in Eggshell, Semi-Gloss and Gloss.
- Ideal for single or multi-family new construction.
- Good washability compared to standard builder-grade coatings.
- Meets the most stringent VOC regulations.
- Can be custom tinted, or a selection of popular package colours is available for the flat finish to ensure high-volume availability and colour uniformity.
PROPERTY SOLUTIONS ®
• Meets the most stringent VOC regulations.
• Applies quickly and easily by brush, roller or spray requiring minimal effort for a faster turn.
• Delivers good hide, flow and leveling resulting in a uniform final appearance.
• Extremely easy to maintain - withstanding mild scrubbing, resisting burnishing and providing very good touchup.
• Available in a wide range of neutral and pastel colours from our palette or we can custom tint using our fast and accurate SherColor™ matching technology.
• Ideal for multi-family interiors including new construction, remodels and maintenance painting.

PREPRITE BLOCK FILLER ®
• Filling and finish system in one product. Allows topcoat on concrete block to be smooth and uniform.
• Effective above grade, unpainted, masonry surfaces.
• Interior and exterior use.

PROMAR 700 ®
• Easier brush and roll application.
• Improved hiding.
• More uniform final appearance.
• Maximized value to you and your customers.
• Available in Latex flat or Semi-Gloss.

BUILDERS SOLUTION ®
• A solution to masking drywall imperfections.
• Optimal touchup including near perfect flat finish touch-up.
• Outstanding scrubability.
• Outstanding burnish resistance.

DRY ERASE COATING ®
• Turn most walls into a dry erase board.
• Use this clear gloss over any paint colour.
• Durable finish wipes clean - no “ghosting”.
• Ideal for schools, conference rooms, message boards - commercial or residential settings.
• Exclusively for sale to professional paint contractors.

ECO SELECT ®
• Zero VOCs meets the most stringent environmental requirements.
• Delivers a uniform final appearance and provides good hide.
• Available in flat, eggshell and semi-gloss finish and can be tinted to an expanded range of colour – including deep shades.
• Only available at certain locations, please check stock at your local Sherwin-Williams store.

Professional Painters should contact their local store or rep for volume pricing.

PRO-PARK® WATERBOURNE TRAFFIC MARKING PAINT
- Highly visible formula is ideal for highlighting curbs, identifying handicapped and emergency zones and defining traffic boundaries.
- Meets the most stringent VOC regulations.
- Compatible with airless line stripers, and can easily be applied with a brush or roller.
- Delivers long-lasting performance.
- Available in white, yellow, firelane red, and black in 1-gallon and 5-gallon containers.
- Readily available 3,500 Sherwin-Williams stores every day – no need to place and store large orders.
PROFESSIONAL COATING PRIMER

DURABILITY IS KEY.
The performance features for evaluating exterior paints include resistance to peeling, blistering, fading, chalking, mildew and dirt.

PROMAR 200 OVOC ® PRIMER
- Premium, commercial zero VOC wall primer
- Great for interior use on walls and ceilings
- Provides excellent hide and can be used under flats and enamels

PROMAR 400 OVOC ® PRIMER
- Commercial primer that provides good value
- Can be used under flats and enamels
- Zero VOC

QUICK DRY STAIN BLOCKING PRIMER
- Multi-purpose commercial primer - now for both interior and exterior.
- Dries in just one hour, so rooms can be topcoated soon after priming.
- Meets stringent VOC regulations.
- Good stain-blocking properties.
- Prime and seal new and previously painted drywall, wood and plaster.

PREPRITE ® PRO BLOCK WATERBASED
- Assures a uniform topcoat appearance.
- Blocks stains.
- Improved long-term adhesion and performance.
- Versatile with low temperature application down to 2° (35F)

PRO INDUSTRIAL PRO-CRYL ® UNIVERSAL PRIMER
- Single-component, rust-inhibitive primer for steel, aluminum, and galvanized
- Recommended when a corrosion-resistant primer is required
- Alternative to conventional solvent-based primers
- Accepts all topcoats – including hot-solvent urethanes and epoxies
- Early moisture resistant
- Fast drying
- Low temperature application
- Available in red-oxide, gray and off-white

COVER-MAX PRIMER ®
- Cover-Max is a good quality primer.
- An economical, interior, latex primer for use on drywall, wood, cured masonry, plaster, concrete, brick and filled block.
- Good coverage and hiding for use in all commercial and new residential projects.

QUALI-KOTE ® PRIMER
- Covers a wide range of irregularities found in new construction interiors
- Ideal for minor drywall damage – filling scratches, sanding grooves, nicks and pinholes
- Improves topcoat performance and produces a uniform, ready-to-finish wall surface

HIGH BUILD PRIMER
- Covers a wide range of irregularities found in new construction interiors
- Ideal for minor drywall damage – filling scratches, sanding grooves, nicks and pinholes
- Improves topcoat performance and produces a uniform, ready-to-finish wall surface

PVA DRYWALL PRIMER & SEALER
- Perfect for priming new residential bare drywall and wood trim
- Sands easily to a smooth surface – saving time and yielding a professional finish
- Quick dry time allows for recoat in one hour – ensuring fast production

MOISTURE VAPOUR BARRIER
- Designed to reduce the loss of moisture through walls and ceilings.
- Combines a primer and finish in one single fast drying coat.
- Is specially formulated for manufactured housing facilities.

BUILDERS SOLUTION SURFACER
- Fills and surfaces rough and uneven new drywall construction
- Uniforms various porosities between drywall paper and joints
- Ensures the finish coat will be a smooth and uniform sheen
- Minimizes minor surface imperfections: paper fuzz, minor sanding grooves, nicks, pinholes.

Professional Painters should contact their local store or rep for volume pricing.

LOXON XP® MASONRY COATING
• Ultimate protection for masonry.
• Exceptional flexibility, durability and fade resistance.
• Protects against wind-driven rain, alkali, cracking and efflorescence.
• High build for one less coat compared to conventional masonry coatings.
• Save time and turns job fast – applies directly to bare concrete with a pH as high as 13. Can be applied to fresh concrete and masonry less than 28 days old. No primer needed.
• Delivers excellent directional rolling and sheen for a uniform finish.
• Low temperature application down to 2°C (35°F)
• Suitable for all types of vertical concrete and masonry surfaces including tilt-up, precast, poured-in-place, CMU, cement block and stucco. Available in a wide range of colours.
• For best results this product should be applied at a minimum of 14-18 mils wft (wet film thickness) and 6.4-8.3 dft (dry film thickness).

CONFLEX XL® HIGH BUILD COATING
• Bridges hairline cracks and keeps water out, even in wind-driven rain.
• Perfect for application to smooth stucco, concrete pane pre-cast concrete panel and CMU for commercial and residential new construction repaints. Retains flexibility, hides hairline cracks and surface irregularities and is permeable.
• Provides high film build and easy application with excellent efflorescence resistance.
• Available in smooth and textured finishes with a wide range of custom colors.
• For select jobs, a performance warranty is available – see your local Sherwin-Williams representative for more details.

SHERLASTIC® ELASTOMERIC COATING
• Prevents water damage on interior surfaces.
• Covers & hides hairline cracks, elongates.
• Easy to apply.
• Resists efflorescence.
• Wide range of colors, tintable.
• Warrantable on select jobs.

LOXON® EXTERIOR ACRYLIC COATING
• Highly alkali and efflorescence resistant.
• Provides a highly durable and weather-resistant finish.
• May be applied to a surface with a pH of up to 13.
• The topcoat contains agents that inhibits growth of mildew on coating surface.
• For concrete, cement composition panels, concrete block, brick, and stucco.

H&C HYDRO-DEFEND®
• Interior and exterior use
• Protects against water damage
• Guards against repeated freeze-thaw cycles and damage from deicing salts
• One coat is sufficient in most cases but a second coat may be applied in 2-4 hours
• It is not recommended for vehicular traffic

PROFESSIONAL PAINTERS should contact their local store or rep for volume pricing.

©2016 The Sherwin-Williams Company
PRO INDUSTRIAL WATERBOURNE ACRYLIC DRYFALL
• Ideal for exposed ceilings and overhead surfaces in commercial, warehouse and manufacturing facilities.
• Flat, eg-shel and semi-gloss* sheens to properly prepared metal, plastic, wood, masonry and drywall.
• Excellent hide covers most surfaces and colours in one single coat - saving on material costs and time.
• Compliant with all current VOC regulations - as well as LEED NC, CI, and CS requirements.
• Retains whiteness and light reflectance properties - even when industrial fumes are present.
• Results in a Class A flame spread rating when applied to a non-combustible surface.
*Semi-Gloss sheen can be used on exterior protected overhead surfaces.

PRO INDUSTRIAL WATERBASED CATALYZED EPOXY
• Exceptional corrosion resistance direct-to-metal.
• Flows and levels to a smooth finish.
• High-performance advanced technology.
• Meets the most stringent VOC regulations.

PRO INDUSTRIAL ACRYLIC
• Exceptional stain resistance.
• Exceptional exterior color and gloss retention.
• Flows and levels to a smooth finish.
• Meets the most stringent VOC regulations.

PRO INDUSTRIAL DTM ACRYLIC
• Excellent corrosion and flash rust resistance
• Excellent weathering properties
• Excellent moisture resistance
• Excellent corrosion resistance
• Meets the most stringent VOC regulations

PRO INDUSTRIAL HIGH PERFORMANCE EPOXY
• Chemical resistant.
• Abrasion resistant.
• Multiple substrates.
• One-coat, high-film build.
• Pre-measured and easy to mix.
• 80% volume solids for multiple substrates.
• No induction time.

PRO INDUSTRIAL WATER BASED ACROLON 100 POLYURETHANE
• Chemical resistant
• Can be applied directly to water based and solvent based organic zinc rich primers

PRO INDUSTRIAL WATER BASED EPOXY
• Enhanced performance, single-component convenience
• Resistant to most commercial cleaners
• Excellent stain blocking properties
• Flows and levels to a smooth finish
• Effortless application by brush, roll or spray

PRO INDUSTRIAL MULTI-SURFACE ACRYLIC
• Excellent one-coat hide and stain blocking
• Excellent adhesion to slick and glossy surfaces
• Self-priming directly to multiple surfaces
• Good exterior colour and gloss retention
• Dries fast with dry fall properties
• Optimized for spray application

PRO INDUSTRIAL PRE CATALYZED WATER BASED EPOXY
• Enhanced performance, single-component convenience
• Resistant to most commercial cleaners
• Excellent stain blocking properties
• Flows and levels to a smooth finish
• Effortless application by brush, roll or spray

PRO INDUSTRIAL WATERBASED ALKYD URETHANE
• Excellent washability
• Excellent flow & leveling
• Excellent touch up
• Easy application & cleanup
• Resistant to yellowing

Professional Painters should contact their local store or rep for volume pricing.
