

CONFLEX™

Flexible Concrete Waterproofer
Smooth & Textured

Ask how to achieve **MOISTURE PROTECTION** in less time.

ASK HOW TO GET THE EASE OF A ONE-PART WITH THE STRENGTH OF A TWO-PART.

Formulated with a unique combination of acrylic resin and mineral aggregate, ConFlex™ Flexible Concrete Waterproofer Textured provides a slip-resistant, breathable finish designed to protect various concrete surfaces from water intrusion. Also available in smooth. This unique single-component, waterbased coating offers unmatched versatility for use on new or existing

residential and commercial structures. It can be used as a stand-alone product or over-coated to provide maximum performance in high-traffic areas. Its easy application, fast dry times, outstanding durability and tintability to hundreds of colors make it the ideal choice for professionals who demand speed, quality and aesthetic appeal.

ConFlex Flexible Concrete Waterproofer Key Benefits

<ul style="list-style-type: none"> • Single-component, waterbased formula 	<ul style="list-style-type: none"> • Can be used as part of a multi-coating Concrete System
<ul style="list-style-type: none"> • Exceptional moisture protection 	<ul style="list-style-type: none"> • Available in textured and smooth finishes and tintable to hundreds of colors
<ul style="list-style-type: none"> • Fast dry times and easy application capabilities for positive and negative side waterproofing 	<ul style="list-style-type: none"> • Apply to concrete (less than 28 days old)
