

PRO INDUSTRIAL™ HIGH PERFORMANCE EPOXY

**PROVEN PROTECTION FOR
AGGRESSIVE ENVIRONMENTS.
PRO INDUSTRIAL DELIVERS.**

When durability matters, Pro Industrial High Performance Epoxy delivers performance. A two-component, 80% solids polyamine epoxy, this coating utilizes proven technology to provide reliable protection in commercial and industrial environments. Process-efficient application and versatility across substrates make protecting and maintaining aggressive environments easier with Pro Industrial High Performance Epoxy.

KEY BENEFITS:

- ✓ Long-term durability in aggressive environments
- ✓ Exceptional chemical and abrasion resistance
- ✓ High solids and high build — applies up to 8 mils DFT
- ✓ Pre-measured packaging and easy-to-mix formula for an easy process with less errors
- ✓ No sweat-in time for increased productivity
- ✓ Versatile coating may be applied to most substrates

KEY USES:

- ✓ Manufacturing plants
- ✓ Warehouses
- ✓ Commercial kitchens
- ✓ Bathrooms and locker rooms
- ✓ Correctional institutions
- ✓ Floors
- ✓ Car washes
- ✓ Laboratories

PRO INDUSTRIAL™ HIGH PERFORMANCE EPOXY

Epoxy technology is known for its durability, and Pro Industrial High Performance Epoxy is no exception. Comprised of solvent-based, high solids (80%) polyamine epoxy, this two-component coating offers exceptional chemical and abrasion resistance for long-term performance — even in aggressive environments.

The unique high-solids formulation was engineered to provide application efficiency. Pro Industrial High Performance Epoxy can be applied at up to 8 mils DFT, minimizing the number of applied coats required. Offered in 4:1 pre-measured packaging, it requires no sweat-in time, providing two-component performance with the process efficiency of a one-component coating.

The performance versatility of Pro Industrial High Performance Epoxy enables it to be used on a variety of substrates, including steel, concrete, drywall, wood, and even floors. When the toughest environments require proven coatings solutions, rely on Pro Industrial High Performance Epoxy for time-proven protection.

PRO INDUSTRIAL: SETTING THE STANDARD FOR HIGH-PERFORMANCE COATINGS.

When performance and appearance matter, trust the time-proven line of Pro Industrial coatings from Sherwin-Williams to ensure exceptional durability and lasting aesthetics. These innovative technologies are engineered to withstand high traffic and demanding conditions, making them ideal for busy commercial and institutional environments. Backed by more than 145 years of experience and the support of 2,400 field reps and 4,000 Sherwin-Williams stores, Pro Industrial is truly the professional's choice when performance is critical.

To learn more, contact your Sherwin-Williams representative or call **1-800-524-5979** to have a representative contact you.
