PRO INDUSTRIAL™ PRO-CRYL® UNIVERSAL PRIMER

Engineered to provide a robust, rust-inhibitive foundation for protecting surfaces in commercial and light industrial applications, Pro Industrial Pro-Cryl Universal Primer provides an ideal blend of performance and application benefits.

With its self-crosslinking cure, Pro Industrial Pro-Cryl Universal Primer develops a tighter film that provides enhanced protection. This also results in better resistance to moisture and long-term corrosion resistance.

An excellent choice for complete project flexibility, this universal primer may be used under the full range of topcoat technologies — acrylics, alkyds, epoxies, and urethanes — for easier protection and maintenance in high-performance applications. Pro Industrial Pro-Cryl Universal Primer can be applied at an extended range of temperatures, and dries quickly to speed project completion.

For the ideal foundation when protecting commercial or light industrial substrates, rely on Pro Industrial Pro-Cryl Universal Primer.
