**Overspray cleans up easily**

Open your smartphone camera and scan over the code to learn more  
about the benefits of Pro Industrial™ Waterborne Acrylic Dryfall. ▶

***Pro Industrial™ Waterborne Acrylic Dryfall***  
*is ideal for brightening ceilings in commercial,  
 institutional and industrial spaces.*

#### **Make Cleanup a Breeze**

Overspray dries to a dust before it settles on floors or equipment and can be easily swept, wiped or vacuumed.

#### **Resists Flash Rust**

A waterbased formula that is flash rust resistant.

#### **Use on Multiple Substrates**

Performs well on structural steel, galvanized metal, concrete and masonry, drywall, and wood.

#### **Boost Lighting Efficiency**

Bright White for better light reflectance to brighten up interior expanses and help contribute to greater lighting efficiency within the space.

***Pro Industrial: Setting the standard for high-performance coatings.*** When performance and appearance matter, trust the time-proven line of Pro Industrial coatings from Sherwin-Williams. These innovative technologies are engineered to withstand high traffic and demanding conditions, making them ideal for busy commercial and institutional environments.
