The SuperDeck Deck Finishing System is your premium choice for complete deck care solutions. SuperDeck’s full line of deck care products is perfect for restoring, waterproofing, stripping, cleaning, staining and sealing. Ideal for horizontal wood substrates, SuperDeck creates the impressive results your customers are looking for and the easy application and fast drying time you’re looking for.

CLEANING & RESTORING THE DECK

To select your pre-treatment options, determine if the deck has been previously stained or sealed. If not, determine if the deck is cedar or redwood, pressure-treated wood or composite, and look at the chart to find your ideal pre-treatment solution.

<tbody>
<tr>
<td>• Great first step for previously coated decks, removing weathered latex stains, oil-based stains, toners, clear finishes and some solid color stains</td>
<td>• Restores the natural beauty and color of redwood, cedar and other resinous woods • Helps remove stains caused by dirt, mildew, algae, weathered wood, tannin extracts, nail bleed and mill glaze • Use on new or uncoated cedar, redwood or pressure-treated lumber and surfaces treated with Stain &amp; Sealer Remover</td>
<td>• Best for use on new or uncoated pressure-treated lumber or composite decking • Helps remove stains caused by dirt, mildew and algae to clean and renew weathered or pressure-treated wood and composite decking</td>
</tr>
</tbody>
</table>

SUPERDECK IS THE MOST COMPLETE DECK CARE SYSTEM AVAILABLE.

SUPERDECK KEY BENEFITS

• Complete, reliable deck care system with clear, semi-transparent, semi-solid and solid color stains in waterborne and transparent and semi-transparent in oil-based formulations, plus products for surface preparation, stain/sealer removal, cleaning, restoring and waterproofing.

• Perfect for deck substrates, including new, uncoated, pressure-treated and weathered lumber, cedar and redwood.

• Long-lasting results, durability and adhesion.

• Available in a wide range of colors that complement the popular WoodScapes® stains for vertical wood surfaces — allowing a fully coordinated look.

IR REFLECTIVE STAINS KEEP THE SURFACE COOLER

• Available in three package colors in the Waterborne Semi-Solid Color and Solid Color stains.

• IR reflective technology contains pigments that reflect UV rays back into the atmosphere.

• Helps reduce exterior surface temperature of wood decks so they are cooler under foot compared to dark stain colors that are difficult to walk on.
To select your sealing and staining options, determine your desired finished appearance and consult the chart below. Keep in mind that protection and durability increase as opacity increases.

**ALSO AVAILABLE WITH IR REFLECTIVE TECHNOLOGY IN 3 COLORS:**
Helps reduce surface temperature — cooler to walk on.
