Open your smartphone camera and scan over the code to learn more about the benefits of SuperPaint® with Sanitizing Technology Interior Latex. ►

The exceptionally durable and trusted performance of **SuperPaint®** now with **sanitizing technology** offers your customers an additional tool to help combat harmful bacteria on painted surfaces.

Sanitize Painted Surfaces 24/7

Painted surfaces deliver continuous and ongoing antibacterial action, remaining effective in killing 90% of certain bacteria[†] even after repeated contamination.

Helps Prevent the Spread of Bacteria on Painted Surfaces

EPA-registered microbicidal paint that kills 99.9% of staph and E. coli on painted surfaces within 2 hours of exposure.

Easy Application

Goes on fast and easy, so you can get more done in a day.

Colors that Create Balance

Available in 540 beautiful hues from the Living Well™ collection.

Industry-leading innovation from a name you can trust. Many hours of field testing, years of research and decades of experience go into developing coatings that are better for your business. Sherwin-Williams has been committed to quality for more than 150 years and has a complete line of extraordinary paints and stains, plus rich, beautiful colors to set your work apart.
