

White Pigmented Shellac Primer

Successful Painting Jobs Start Here.

The Only Primer You Need to Seal Out
the Toughest Stains, Odors and Wood
Knots in One Coat

Exceptional Stain Killer.
Primer/Sealer

Restoration for today. Protection for the future.

A favorite for fire restoration work, Sherwin-Williams White Pigmented Shellac Primer blocks stubborn stains caused by fires, floods and pets — as well as embedded cooking and cigar smoke odors. It's our highest-performing primer for reliably sealing out the toughest stains and odors in one coat. Use as a full interior primer or a spot exterior primer.

Key Benefits:

- Seals in stains and graffiti
- Seals in knot bleeding
- Seals in odors from fire, smoke and pets
- Blocks stains from water, smoke, nicotine, ink, crayon, marker, grease and more
- Assures a uniform sealed surface
- Excellent adhesion to many interior surfaces — including previously painted surfaces, glossy surfaces, unpainted or porous surfaces, wood and paneling, cured plaster, ceiling tiles, metal, masonry, and smoke-, fire-, or stain-damaged areas
- Use as a spot primer for exteriors
- Apply in temperatures down to 0°F
- Effective for spot priming knots, sap streaks and severe tannin stains on bare wood
- Quick drying — recoat in 45 minutes @ 77°F, 50% RH
- Primes and seals in one coat
- Works with many architectural topcoats

Use on:

- Wood
- Plywood
- Paneling
- Cured plaster
- Ceiling tiles
- Previously painted surfaces
- Block/masonry/stucco
