## Color Remix – Circular Stencil

Turn a plain piece of furniture into a statement piece! Share your color remix with [#SWColorLove](https://www.instagram.com/SWColorLove).

### Supplies For This Project:

**Dresser with Removable Drawers**

**New Knobs (optional)**

**Sherwin-Williams Emerald Interior Acrylic Latex**

**Paint Water + Detergent**

**Tack Cloth**

**Medium Grit 3M™ Sanding Sponge**

**Fine Grit 3M™ Sanding Sponge**

**Purdy Paint Roller Cover for Smooth Surfaces**

**Paint Roller Frame**

**Purdy Paint Brush (2")**

**Premium Wall & Wood Primer**

### Colors Used:

SW 7757

**High Reflective White**

SW 6600

**Enticing Red**

## Instructions:

1. First, select your dresser. We recommend one with drawers that fully remove, and a dresser body that frames each drawer to maximize color contrast.
2. Remove the knobs and clean the dresser with warm water and detergent. Once it's dry, sand the dresser and clean off dust with tack cloth.
3. Prime the body of the dresser and the four drawers with Premium Wall & Wood Primer. Let dry for 3-4 hours.
4. Once dry, paint the body of the dresser and the four drawers with your base color (we went with a classic High Reflective White SW 7757). Let the dresser frame and the drawers dry overnight.
5. Take your circular stencil and adhere it to the front of your dresser with repositionable spray mount. Trace the design on the surface of the dresser and mark it with a pencil. Reposition the stencil on different areas of the dresser to create a couple of different circle patterns.
6. Remove the drawers from the drawer.
7. Select an accent color that will complement your look; we chose Enticing Red SW 6600. Paint your design on both the drawers and the dresser frame using an angled Purdy brush to keep your lines clean. Wait several hours to dry.
8. Carefully replace the drawers into the dresser frame and screw the knobs back into the dresser to finish the look.

## The BEFORE & AFTER...

WARNING! Removal of old paint by sanding, scraping, or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (NIOSH approved) and proper containment and cleanup.

For more information, call the National Lead Information Center at 1-800-424-LEAD (in US) or contact your local health authority.
