Color Remix – Natural Wood with Trim and Handles
Turn a plain piece of furniture into a statement piece! Share your color remix with #SWColorLove.

Supplies For This Project:

- Dresser with Removable Drawers
- New Knobs (optional)
- Sherwin-Williams Emerald Interior Acrylic Latex
- Paint Water + Detergent
- Tack Cloth
- Medium Grit 3M™ Sanding Sponge
- Fine Grit 3M™ Sanding Sponge
- Purdy Paint Roller Cover for Smooth Surfaces
- Paint Roller Frame
- Purdy Paint Brush (2’’)
- Premium Wall & Wood Primer

Colors Used:

- SW 9020 Rayo de Sol
- SW 6737 Kiwi
Instructions:

1. First, select your dresser. We recommend one with drawers that fully remove, and a dresser body that frames each drawer to maximize color contrast.

2. Remove the knobs and clean the dresser with warm water and detergent. Once it’s dry, sand the dresser and clean off dust with tack cloth.

3. Begin by removing all the drawers from your dresser. We want to create a vintage look with this design, so we are going to preserve the look of the natural wood.

4. We love the look of a bold yellow, so we chose to use Emerald® Interior Acrylic Latex Paint in Rayo de Sol SW 9020. It's both paint and primer, so just one coat is enough. Let dry for several hours.

5. Before painting the knob and dresser trim, prime using Premium Wall and Wood Primer. Let dry, then using another color of your choice (we are loving this soft green: Kiwi SW 6737), paint your drawer knobs and set aside to dry.

6. Once everything has dried completely, carefully replace the drawers into the dresser frame and screw the knobs back on the drawers.

7. Enjoy your refreshed dresser that now has a unique pop of color!

The BEFORE & AFTER...

WARNING! Removal of old paint by sanding, scraping, or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (NIOSH approved) and proper containment and cleanup. For more information, call the National Lead Information Center at 1-800-424-LEAD (in US) or contact your local health authority.
