

Waterborne Acrylic **DRYFALL**

DRIES AS IT FALLS – SO OVERSPRAY CAN BE SWEEPED AWAY.

INTERIOR ACRYLIC LATEX

SPRAY AWAY, THEN SWEEP AWAY. WATERBORNE ACRYLIC DRYFALL MAKES IT EASY.

Paint ceilings and joists in all kinds of production settings with Waterborne Acrylic Dryfall. It applies easily by airless spray and then dries rapidly — before it has a chance to settle on machinery, equipment and floors.

Under normal conditions, this non-yellowing acrylic dries to a removable powder from a height of at least 10 feet. Best of all, because it can be quickly swept or vacuumed away, you'll minimize the need for strong cleaning solutions and reduce your cleanup costs.

WATERBORNE ACRYLIC DRYFALL KEY BENEFITS

- | | |
|--|--|
| <ul style="list-style-type: none"> • Ideal for exposed ceilings and overhead surfaces in commercial, warehouse and manufacturing facilities. | <ul style="list-style-type: none"> • Compliant with all current VOC regulations — as well as LEED NC, CI and CS requirements. |
| <ul style="list-style-type: none"> • Flat, eg-shel and semi-gloss[‡] sheens apply easily to properly prepared metal, plastic, wood, masonry and drywall. | <ul style="list-style-type: none"> • Retains whiteness and light reflectance properties — even when industrial fumes are present. |
| <ul style="list-style-type: none"> • Excellent hide covers most surfaces and colors in a single coat — saving on materials costs and minimizing downtime. | <ul style="list-style-type: none"> • Results in a Class A flame spread rating when applied to a non-combustible surface. |

[‡]Semi-Gloss sheen can be used on exterior protected overhead surfaces.
