

# EPA CERTIFICATION WORKSHOPS

Federal law requires all contractors performing renovation, repair or painting projects that disturb lead-based paint in homes, child-care facilities or schools built prior to 1978 to be certified and to follow specific work practices to prevent lead contamination.\*

## SPECIAL INVITATION TO SHERWIN-WILLIAMS CUSTOMERS\*\*

Sherwin-Williams is offering the 8-hour certification training session in markets throughout the country. The training will be conducted by an EPA-accredited national training firm and will include:

- Regulations
- Prep Work
- Dust Containment
- Clean-Up
- Record Keeping
- Job Site Supervision

Attendees who successfully complete the course, including a short exam, will receive the EPA certification required to perform work in pre-1978 buildings.

**The session includes lunch as well as the EPA Renovation, Repair and Painting (RRP) Manual. See your local Sherwin-Williams representative for class prices.**

See your local Sherwin-Williams representative for sign-up information and the available dates and locations of workshops in your area.

**Class sizes are limited, so register early!**

\* For complete details on the new certification rules, be sure to visit the EPA website [www.epa.gov/lead/pubs/renovation.htm](http://www.epa.gov/lead/pubs/renovation.htm).

\*\* Special invitation available to Sherwin-Williams wholesale accounts only.
