

## COLOR COLLECTIONS DESIGNED FOR EXTERIOR HARMONY

# EXTERIOR COLOR CONSIDERATIONS

A HOME'S FIXED FEATURES, ARCHITECTURAL STYLE, AND SURROUNDING ENVIRONMENT ARE ALL ELEMENTS TO CONSIDER WHEN SELECTING YOUR EXTERIOR COLORS.

**FIXED FEATURES**  
A home's fixed features are architectural elements that cannot be changed and should be factored into your home's exterior color palette. *Fixed features include: Foundation materials (concrete, stone, brick, stucco), style and color of roofing shingles, chimney structures, porch, steps, retaining walls, walkways, decks and patios.*

**ARCHITECTURAL STYLE**  
Your color scheme should complement the type of home you have. Colonial, Victorian, Contemporary, or Cape, consider colors that might enhance your home's architectural style and apply them thoughtfully in order to highlight certain defining features.

**SURROUNDING ENVIRONMENT**  
Your home's surrounding environment, landscaping, and natural setting are also elements to consider when choosing your colors. If your home is surrounded by trees, contrasting colors will help it to stand out, while a home with little or no trees will benefit from natural hues. Waterfront, desert, urban, or wooded, consider using colors that complement the setting.
