Harmony Paint — long known for its premium performance in a zero VOC formula — now contains Formaldehyde Reducing Technology, which helps promote better indoor air quality by reducing airborne concentrations of formaldehyde and other aldehydes. This unique technology actually helps reduce the levels of these volatile organic compounds (VOCs) from potential sources like insulation, carpet, cabinets, fabrics and other building materials.

In addition, Harmony contains Odor Eliminating Technology, which helps reduce ambient odors of organic origin, like pet, cooking and smoke odors — making it ideal for multi-family, healthcare, institutional, commercial and residential projects. This zero VOC formula meets the most stringent VOC regulations. Harmony contains anti-microbial agents that minimize deterioration of the paint film caused by mold and mildew and extend the useful life of the paint. Harmony Paint provides great coverage, a finish that lasts, reduces interior odors and helps promote better indoor air quality.

Harmony’s Formaldehyde Reducing Technology has been tested by a third-party laboratory. Compared to conventional paints, Harmony’s exclusive formula offers a clear advantage for improved indoor air quality.
Harmony Paint — long known for its premium performance in a zero VOC formula — now contains Formaldehyde Reducing Technology, which helps promote better indoor air quality by reducing airborne concentrations of formaldehyde and other aldehydes. This unique technology actually helps reduce the levels of these volatile organic compounds (VOCs) from potential sources like insulation, carpet, cabinets, fabrics and other building materials.

In addition, Harmony contains Odor Eliminating Technology, which helps reduce ambient odors of organic origin, like pet, cooking and smoke odors — making it ideal for multi-family, healthcare, institutional, commercial and residential projects. This zero VOC formula meets the most stringent VOC regulations. Harmony contains anti-microbial agents that minimize deterioration of the paint film caused by mold and mildew and extend the useful life of the paint. Harmony Paint provides great coverage, a finish that lasts, reduces interior odors and helps promote better indoor air quality.

*The length of time Harmony actively reduces odors and formaldehyde depends on the concentration, the frequency of exposure and the amount of painted surface area.

**HARMONY KEY BENEFITS**
- Formaldehyde Reducing Technology helps improve indoor air quality by reducing VOCs from possible sources like insulation, carpet, cabinets and fabrics.*
- Odor Eliminating Technology helps reduce common indoor odors so rooms stay fresher, longer.*
- Anti-microbial agents inhibit the growth of mold and mildew on the paint surface and inhibit the growth of bacterial odors.
- Zero VOC formula tinted with ColorCast Ecotoner® Colorants that do not add VOCs when tinted.
- Great hide and a durable finish that withstands frequent washings.
- Available in flat, egg-shell and semi-gloss.
- Backed by a Lifetime Limited Warranty.

**ALSO AVAILABLE:**

**HARMONY® INTERIOR LATEX WALL PRIMER**
- Primers, seals and hides.
- Prepares the surface to provide good topcoat performance.
- Zero VOCs.

**FORMALDEHYDE REDUCTION AFTER 24 HOURS**
