Easy application and cleanup

Exceptional touch-up

Resistant to yellowing

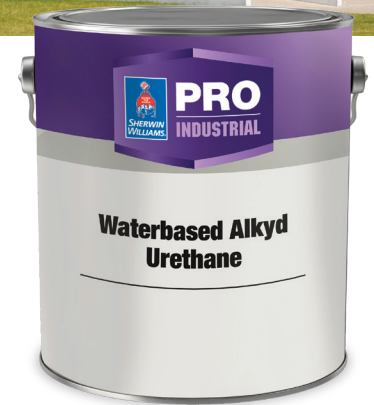

Excellent washability,
flow and leveling

Open your smartphone camera and scan over the code to learn more about the benefits of Pro Industrial™ Waterbased Alkyd Urethane Enamel. ▶

Pro Industrial™ Waterbased Alkyd Urethane Enamel goes beyond expectations, combining durability and ease of use for an attractive, long-lasting impression.

Premium hybrid coating

This interior/exterior coating combines the durability of a urethane, the smooth surface and washability of an enamel, and the easy application and cleanup of a waterbased coating.

Maximizes productivity

Minimize repaints and reduce overall maintenance costs with a high-performance coating that suits multiple applications and adheres well to a variety of properly prepared substrates.

Multiple finishes and colors

Available in Low Sheen, Semi-Gloss and Gloss finishes, this advanced coating is designed to maintain a freshly painted look longer than typical enamel coatings and can be tinted to most colors. Gloss sheen also offers safety color bases for accident prevention.
