

ELECTRIC AIRLESS SPRAYER COMPARISON

WHEN CHOOSING A SPRAY SYSTEM, CONSIDER THE ANSWERS TO THE FOLLOWING QUESTIONS:

- What types of coatings do you typically spray — both now and in the future?
- What tip sizes do your coatings require? How many guns?
- How many gallons do you spray a week?
- How frequent will the sprayer be used — daily, weekly, monthly or yearly?
- What types of jobs (DIY, residential, commercial or industrial) will this be used for — both now and in the future?
